

# JKE-215K-2L-LAA SunGiga Liquid Cooling ESS Solution

Jinko liquid-cooled battery cabinet integrates battery modules with 1000V DC battery and capacity of 215kWh. Also can be widely used in various application scenarios such as generation and transmission grid, distribution grid, new energy plants.

#### HIGHLY INTEGRATED **RELIABLE AND SAFE EFFICIENT AND FLEXIBLE SMART SOFTWARE** ☐ Configuration capacity with 5 ■ Intelligent monitoring and ☐ The turnkey system is design to ■ Multiple operation modes are modules with 215kWh. linkage actions ensure battery enhance higher efficiency and available, the software can be system safety prolong battery life customized and upgraded ☐ Liquid-cooled battery modular ☐ Highly integrated ESS for easy ☐ Cloud-based monitoring and ■ Integrated heating system for design, easy to system expansion transportation and flexible O&M operation platform supports the thermal safety and enhanced performance and reliability visit of Mysal database and multiple devices

### APPLICATION

### PEAK SHAVING

Discharge at time of peak demand to reduce expensive demand charge.

### ENERGY BACKUP

Powers a facility when the grid goes down, or application in areas without electricity.

### CAPACITY FIRMING

Smooth out the intermittency of renewables by storing and dispatching when needed.

## OPTIMIZATION THE UTILIZATION OF RENEWABLE

Daytime load maximizes PV power, and excess power is stored for use at night.

### ARBITRAGE

Carry out arbitrage by using peak and valley electricity prices in different time periods.

### **COST SAVING**

Supply power at a distributed location to reduce investment in the construction of the grid.

### **BATTERY DATA**

**Battery model** LFP-280Ah Cell spec 3.2V/280Ah DOD 95% 0.5P Max. charge and discharge power 1P240S Configuration of system 215kWh Max nominal energy 768V Nominal voltage 672V~864V **Battery voltage range** Liquid cooling Cooling concept CAN/RS485/LAN **BMS** communication

Cycle Life 6000

### **GENERAL DATA**

Environment temp -20 C ~ 50 C

Environment humidity ≤95%RH ,without condensation

Operating altitude ≤3000m

Noise ≤ 75dB(A) @1m

Degree of protection IP54
Fire suppression system Aerosol

Anticorrosion grade C4/C5 (Optional)

Classes of seismic measure 7 level
Communication interfaces Ethernet

Dimensions(W×D×H) 1300×1300×2300mm

Weight ≈2.8t

Certificates IEC62619,IEC63056,IEC62477,IEC60730,IEC61000.etc

CAUTION: READ SAFETY AND INSTALLATION INSTRUCTIONS BEFORE USING THE PRODUCT.
