SUNGIGA JKS-215KLAA-100PLAA

Liquid Cooling ESS Solution SUNGIGA

Jinko 215 Liquid-Cooled Integrated Cabinet integrates battery modules, BMS, PCS and fire protection equipment to offer a 1000V energy storage system solution for users. This system has a battery capacity of 215 kWh and can deliver up to 100 kW of power. The product is characterized by its flexible deployment, safety and reliability, intelligent liquid cooling, and smart.

HIGHLY INTEGRATED	RELIABLE AND SAFE	SMART LIQUID-COOLING	SMART SOFTWARE		
All-in-one design, integrating PCS for easy transportation and flexible O&M.	☐ Intelligent monitoring ensure battery system safety.	Non-uniform liquid cooling pipeline desi effectively reduces the temperaturediffere between battery cells.			
Flexible Multi-Unit Expansion: Modular design, supporting parallel operation of multiple units. Integrated heating system for thermal safety and enhanced performance and reliability. Multiple liquid cooling control modes, reduce system power consumption. Cloud-based monitoring and operation platform, supports access for multiple devices. Application sScenerio Keneric Keneric Keneric Keneric					
PEAK SHAVING Discharge at time of peak dema expensive demand charge.		CKUP ity when the grid goes down,or areas without electricity.	CAPACITY FIRMING Smooth out the intermittency of renewables by storing and dispatching when needed.		
OPTIMIZATION THE UTILIZ RENEWABLE Daytime load maximizes PV po excess power is stored for use a	wer,and Carry out arbit	rage by using peak and valley es in different time periods.	COST SAVING Supply power at a distributed location to reduce investment in the construction of the grid.		

BATTERY

Battery Input		
Battery model	LFP 3.2V/280Ah	
Max. charge and discharge power	0.5P	
Configuration of system	1P240S	
Number of packs	5 pcs	
Nominal energy	215 kWh	
Rated voltage	768V	
Nominal voltage range	672V~864V	
Cooling concept	Liquid cooling	
DOD	95%	
Cycle life	6000	
AC Output		
Rated AC power	100 kW	
Rated voltage	400 Vac	
AC connection	3W+N+PE	
Rated frequency	50 Hz	
THDi	< 3%	
Cooling concept	Air cooling	
General Data		
Environment temp	-20°C~50°C, derating > 45° C	
Environment humidity	≤95%RH ,without condensation	
Operating altitude	≤2000m	
Degree of protection	IP55	
Fire suppression system	aerosol	
Anticorrosion grade	C3/C5(Optional)	
Communication	RS485/CAN/Ethernet	
Dimensions (WxDxH)	1300x1300x2300 mm	
Weight	~2800kg	

CAUTION: READ SAFETY AND INSTALLATION INSTRUCTIONS BEFORE USING THE PRODUCT.
